

Theodossios Drossidis

 Theo Drossidis |  TheoDrossidis |  theo-dr@web.de

SUMMARY

I am a PhD candidate specializing in applied macroeconometrics and the distributional effect of macroeconomic shocks. My current research centers on the transmission of macroeconomic shocks. With relevant exposure to central banking, I continue to manage my own research publications, presenting at academic seminars and conferences whilst contributing and engaging with policymakers through internal communications.

TEACHING EXPERIENCE

Graduate Teaching Assistant, Brunel University London Sept 2022 - Jun. 2024

- Teaching first and second-year undergraduate students in Macroeconomics and Microeconomics in classes of up to 50 students.
- Preparing and demonstrating lecture slides and practical examples.
